

Reaction time
approx. 15-20 minutes

Application field
all fuel and diesel engines

Consumption
250 ml for 5 L oil // 50 ml for 1 L oil

Application interval
add to the oil system before every oil change

ENGINE FLUSH

Application

Application: 1) Add to the oil system before every oil change. 2) Let the engine idle for approx. 15-20 minutes. 3) Carry out the oil change according to the manufacturer's instructions. Sufficient for 5 L oil. For larger capacities add 60 ml per liter of oil. Product can be disposed of as waste oil.

Description

AUTOMAX Engine Flush is suitable for use in all diesel and petrol engines with or without turbocharger. Eliminates aggressive residues from the combustion process. Reliably dissolves operationally caused contamination and resin formations in the complete oil system, which can then easily be removed with the used oil during the oil change. The product contains highly effective antifriction lubricants that reliably protect the engine during the cleaning process.

Advantages

Only a clean engine can run on full power! Easy to use – no extra effort. Removes lastingly deposits and residues from piston rings, oil channels and housing walls as well as on hydraulic valve lifters and the valve train. The results are a considerably improved and stable compression in all cylinders. Fuel and oil consumption as well as wear and tear are reduced. Less harmful exhaust emissions support the environment and extend the life span of the catalytic converter. Avoids recontamination of the fresh oil with residues and deposits of the used oil.

Packing size	Art. No.	Packaging unit
250 ml	62755	24x250 ml
other sizes available on request		

Properties

Physical state	liquid
Color	light yellow
Density	0,80 g/cm ³
Flash point	68°C
Viscosity	1,7 mm ² /s (@ 40°C) DIN EN ISO 3104

Compatibility

Mixable with all mineral and synthetic engine oils.

Safety instructions

Follow the application instructions on the technical data sheet (TDS). Read safety instructions in the Material Safety Data Sheet (MSDS) before using this product. Please keep out of reach of children. If medical advice is needed, have product container or label at hand and call poison centre/doctor.

Disposal

Dispose of this product and container according to national/ regional regulations.
